Seasonal Flu Vaccination

As an employer, you already know how important a healthy, productive workforce is to your bottom line. However, did you know that more than 200,000 people are hospitalized each year due to season flu complications?

Offering your employees the opportunity to be vaccinated for the seasonal flu onsite makes sense (dollars and cents). In fact, workers that are vaccinated report 43% fewer sick days and 44% fewer clinic visits than those employees not vaccinated.

*Best of all, there is typically **no cost** for this service. We are able to bill over 17 major insurance plans for you.*

Why Choose MVNA?

- ◆ **Experienced, trusted staff**
Highly skilled Registered Nurses (RNs) deliver expert, onsite vaccination services.
- ◆ **Serve clients large and small**
Offering our flu immunization services to small, single-site organizations and large, multi-location groups. Minnesota based, but able to provide services on a national level.
- ◆ **Easy administration**
Providing a single point of contact, a designated Program Manager ensures smooth implementation and minimal work for you and your staff.
- ◆ **Easy participation**
State-of-the-art online scheduling system makes it easy for employees to sign up and participate. Email confirmations and 24 hour reminders.
- ◆ **Benefits the community**
MVNA's nonprofit status and mission driven philosophy allows proceeds from our flu immunizations to be reinvested in our community.

"Employees really appreciate flu shots at the workplace, and MVNA does a great job of working with our medical plan providers regarding fee payment."

- Mary K., Human Resource Manager, Midwest Hardwood Corporation
